## Cleary Building Corp. History

The company was founded in 1978 to offer clients a quality building which satisfied their needs at an affordable price. From day one, the company prided itself on offering the personal service a client deserves. Cleary Building Corp.'s world headquarters and manufacturing plants are located in Verona, WI.

In a continuing effort to serve our Midwest and Northwest clients, Cleary Building Corp. opened our second and third "state of the art" manufacturing plants and offices in Grand Island, Nebraska (1995) and in Hazelton, Idaho (1998).

World Headquarters and Manufacturing Plants  
Verona, WI

Midwest Manufacturing Plant  
Grand Island, NE

Western Manufacturing Plant  
Hazelton, ID

Cleary Building Corp. constructs buildings for suburban, farm, commercial, residential and horse applications. We have constructed churches, stores, manufacturing plants, warehouses, corn storage buildings, bus garages, airplane hangars, houses, and just about any other possible application. The Cleary Building Corp. pre-engineered structure continues to provide itself as a viable solution to today's building construction costs and has become widely accepted by engineers, architects and building officials.

Cleary Building Corp. remains firmly committed to bringing clients lasting quality at affordable prices. While Cleary Building Corp. plans additional expansion and is large enough to handle clients' building needs, it maintains the smallness that ensures the personal service Cleary Building Corp. believes its clients deserve.

*Multiple United States Locations to Serve ALL of Your Building Needs!*

*Throughout the United States there's a  
Cleary Building Sales Specialist near you.*
