The majority of damage to RVs & boats is caused by exposure to the elements. Prolonged exposure to the sun can damage siding, tires, gaskets and seals and will cause interior deterioration. RV & boat owners need storage facilities to protect their investment!

The self-storage industry's future is very bright and it will continue to mature along with the demand for its use. The advantages for investing in self-storage and mini-storage are numerous and will continue to be the key elements for its success.
