CLEARY BUILDING CORP. TO CONSTRUCT NEW BUILDING AT THE JEFFERSON COUNTY FAIR PARK

FORT ATKINSON, WI- On May 11th the Jefferson County Board of Supervisors awarded the construction of a new Stalling and Storage building at the Jefferson County Fair Park to Cleary Building Corp. The 60' x 112' pre-engineered Cleary Building will have a concrete floor and will be used to accommodate many events during the year including the Sheep and Wool Festival, 2 large regional horse shows and the Jefferson County Fair. The building will be erected near that Fair Park entrance (along Jackson Street) and is scheduled to be completed in time for the County Fair this July.

The Jefferson County Fair Park hosts some two hundred plus events each year and many are expanding. "As part of our mission to reduce the amount of tax levy used to subsidize the Fair Park, we are making improvements to the grounds that our tenants find valuable and that help expand our revenues each year at the County Fair," states Fair Park Director Paul Novitzke. "We must continue to make improvements to the Fair Park in order to assure that we can accommodate the many events we host that are so valuable to our local economy. This year, we have commitments for over twelve rental days thus far and expect to save expense by using the building for commercial space instead of renting a large tent. Winter storage has been sold out in our other buildings and we expect to fill the new building this winter."

Cleary Building Corp. is a family-owned company in business since 1978 and is a nation-wide leader in customized pre-engineered buildings. Building applications include commercial, residential, suburban, farm and equine facilities along with metal roofing and re-roofs. The corporate office and manufacturing plant are located in Verona, WI. Additional manufacturing facilities are located in Grand Island, NE and Hazelton, ID. Cleary Building Corp. employs over 800 full-time employees throughout the United States at its 78 offices.
